check pattern
in 'pine forrest'

OUTFIT 2

Five-Pocket Jeans Back View
Style 2: brown denim with
'läss' lable

TECHNICAL SKETCHES - COLLECTION PIECE 1

OUTFIT 1

The first outfit in this collection is an upcycled suit transformed into a sleeveless suit jacket and matching trousers.

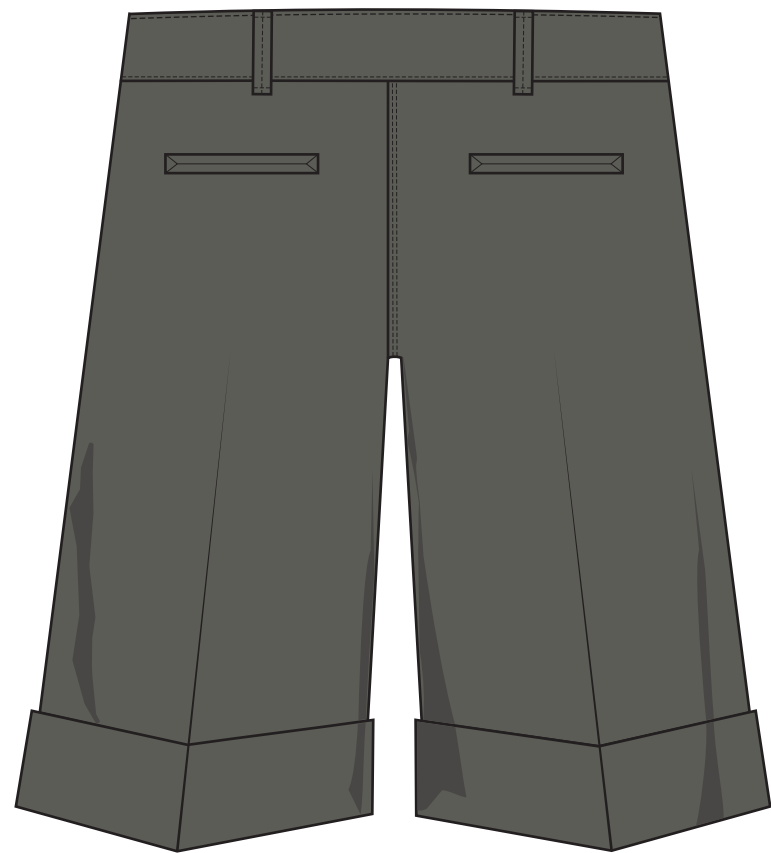

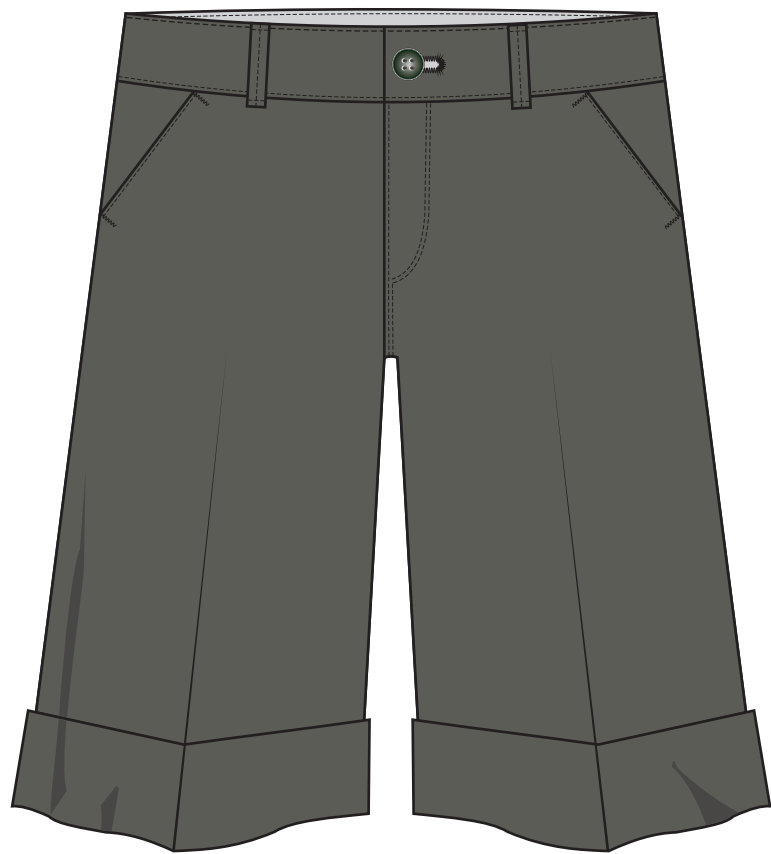

The jacket features an adjustable belt that allows for a versatile fit, making it suitable for all genders.

The trousers are designed with a kneeling cut and adjustable side openings, secured with snap fasteners, allowing for flexible styling and comfort.

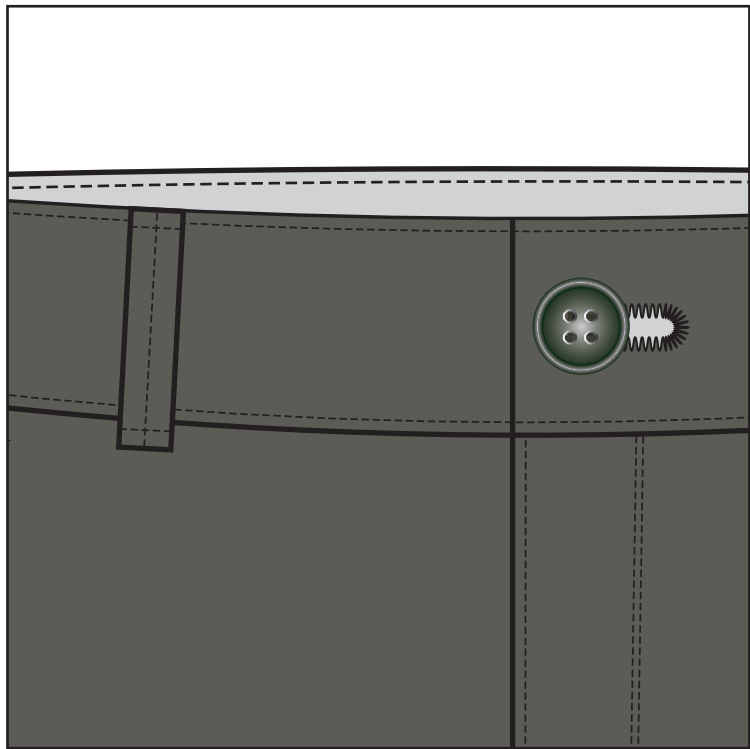

This look emphasizes adaptability, gender inclusivity, and sustainability through the creative reuse of existing garments.

TECHNICAL SKETCHES - COLLECTION PIECE 3

Additional middle piece
with snap fasteners to
adjust size

OUTFIT 2

The second outfit continues the concept of upcycling and adaptability.

A standard jersey T-shirt has been reimagined into a turtleneck top with adjustable side detailing, allowing the fit and silhouette to be customized for both style and size flexibility.

The bottom piece is a repurposed skirt, redesigned with a pull-up system that enables it to be worn in various lengths, from mini to long and on one or both sides.

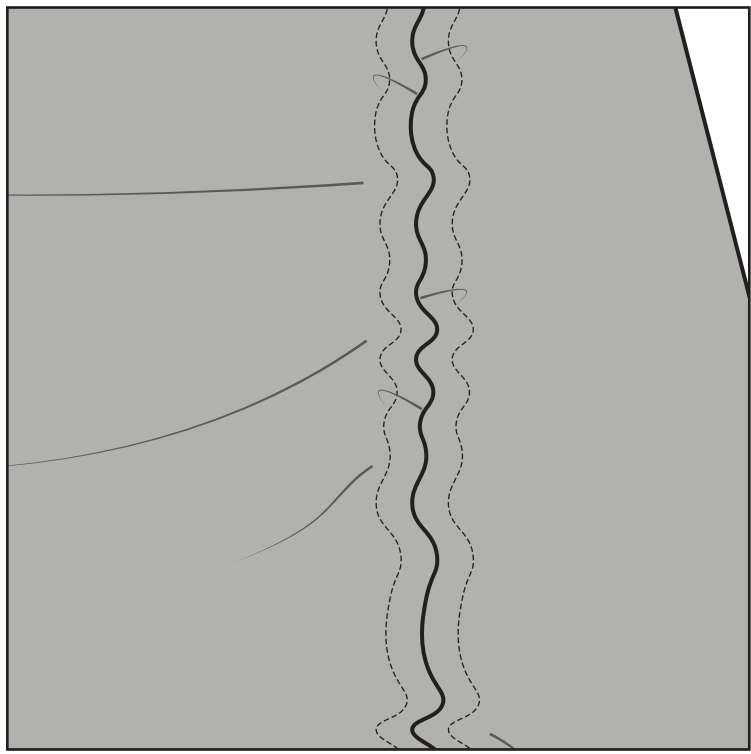

This versatile design embraces individual expression and circular fashion through functional transformation.
